

Mid-Peninsula Animal Hospital
Registered Veterinary Technician (RVT) Floor Supervisor

Job Summary

As a Floor Supervisor, you oversee the team of RVTs and assistants in an organization unique in its empowerment of RVTs. Your team provides the foundation for delivering first-class care to dogs, cats and pocket pets, and is responsible for core patient treatment and care. Your calm, pleasant demeanor belies the powerhouse of organization, leadership and medical talent you apply as you work side-by-side with your staff, for the smoothest operation possible at full-scale capacity.

Qualifications

- * Current California State Registered Veterinary Technician (RVT) License
- * Five years of RVT experience that demonstrates a core basis of knowledge in medical, surgical, dental and emergency care. Three years of management experience preferred.
- * Technical proficiency across modern veterinary equipment including digital radiography, ultrasound, ventilator, Class IV therapeutic laser, wireless Vmed surgical monitors, and the full suite of Idexx laboratory equipment.
- * Work habits to self-start, multi-task and pay attention to detail, independently and on a team.
- * Calm personality, even under pressure, with a flexible demeanor and the communication skills for every personality.
- * Excellent references.

Description

Prioritize procedures and treatments. Supervise the nursing staff, delegate and direct them to ensure smooth, yet efficient, workflow and maintain full-scale capacity. Deliver core patient medical treatment, dental and surgical care, side-by-side with the other team members.

Assist the veterinarians and perform diagnostic or treatment procedures. Induce anesthesia and support surgical procedures. Take xrays and facilitate ultrasound surveys. Set up and run lab tests. Place and maintain IV catheters and fluids. Administer vaccinations and medication. Monitor patients and provide nursing care. Recognize dental disease and perform prophies, including extractions. Update clients. Educate to help caregivers truly understand treatment options, home health follow-up or next steps. Maintain meticulous medical records. The compensation for this position is commensurate with experience and includes a strong benefits package.
